

Background & Problem

K-Computer Limited is the number one supplier in Scotland of front desk software systems for the hotel industry and one of Scotland's leaders in the provision of IT systems software and hardware, support, maintenance and Managed Services.

Actions Taken

DMAS Limited has provided Management Support to the company over a period of 5 years in an efficient, effective, friendly and supportive manner.

During this period David and his team have, amongst other activities, facilitated on our behalf the acquisition of a complementary business, the sale of another business, the introduction of Health & Safety policies and procedures, the introduction of effective financial control systems, the provision of funding when necessary and the identification and knowledge to introduce new services.

The Result

David has given personal support to me, on a one to one basis, providing a shoulder to lean on in times of stress and acted as a sounding board for problem solving and new ideas.
